

PhD Student	Supervisor	Co-Supervisor	Title of the Research Project
AMBROSINO Sara	Prof.ssa Ciriana Orabona	Dott.ssa Giada Mondanelli	"Characterization of the genetically modified IDO1H350A mouse model expressing a loss-of function mutant of IDO1 enzyme"
BIAGINI Andrea	Prof.ssa Roberta Spaccapelo	Dott. Nicola Refrigeri (La Sorgente del Benessere)/Prof. Bernard Fioretti	"Shelf-life enhancer"
CONSOLO Eleonora	Prof.ssa Roberta Spaccapelo	Dott.ssa Mariamgela Amoroso (Sanofi S.p.A.)	"Artificial Intelligence for implementation of hypercholesterolemic very high-risk patient clinical management"
GLIOZHENI Elko	Prof.ssa Roberta Spaccapelo	Prof. Bernard Fioretti	"Metabolomic characterization of Follicular fluid derived from women with Polycystic Ovary Syndrome"
RUTA Luana	Prof.ssa Barbara Cellini	Prof. Antonio Macchiarulo	"Biochemical characterization of enzymes involved in the metabolism of amino acids as drug targets for human diseases of genetic and non-genetic origin"
SALLICANDRO Luana	Prof.ssa Roberta Spaccapelo	Dott.ssa Rossi (S&R Farmaceutici)/Prof. Bernard Fioretti	"Produzione eco-sostenibile di nuovi formulati a base di polifenoli per la regolazione della fertilità femminile (acronimo: Polyphertility)"
SARNARI Francesco	Prof.ssa Francesca Fallarino	Dott.Federico Mingozi (Spark Therapeutics, Inc., USA)	"Immune response biomarkers identification during gene therapy treatment in Haemophile A"
TRAMONTANA Filippo	Prof.ssa Roberta Spaccapelo	Dott.ssa Mariangela Amoroso (Sanofi S.p.A.)	"The complex interplay between multiple myeloma and microbiome"
VASCELLI Gianluca	Prof.ssa Teresa Zelante	Prof. Stuart Levitz (UMass Chan Medical School, USA)	"Challenges against pathogenic fungi: from microbiome to the immune response in fungal infections"
