

## PhD PROGRAMME IN:

### SYSTEMS BIOLOGY IN IMMUNE AND INFECTIOUS DISEASES

<b>Course title:</b>	<b>SCIENTIFIC COMMUNICATION FOR PhD STUDENTS</b>
<b>Aim of the course:</b>	Researchers need to communicate their research to a broad audience, such as the public, the press and funding organizations – but communicating complex specialized findings can be challenging. The students will get support and information on how to write and abstract and poster presentation.
<b>Lecturer:</b>	Dr. Giada Mondanelli
<b>Venue:</b>	to be defined
<b>Course Program:</b>	<ul style="list-style-type: none"><li>• How to write an abstract: overview and useful tips</li><li>• How to write an abstract: team exercise and discussion</li><li>• Principles of Poster Presentation and Oral Presentation</li><li>• Poster - Team Exercise and discussion</li></ul>
<b>Target audience:</b>	The course is mainly meant for PhD students in Systems Biology in Immune and Infectious Pathologies PhD programme. However, the course is open to all scientists with an interest in the issue.
